

Press-to-Size **Brushes & Contacts**

Helwig Carbon's state-of-the-art manufacturing facility
for custom and high volume press-to-size parts.

Research and Development:

- Material and Sample Analysis
- Application Analysis
- Custom Grade Formulations - graphite, copper graphite and silver graphite.

- In-House Tooling Capabilities
- Molded-in Shunt/Wires
- Lower Per Part Costs
- On-Site Motor Testing Facility
- ISO 9001: 2008 Certified
- Just-In-Time Deliveries
- Kanban or Stock and Release
- Finish Machining
- Assembly Capabilities
- Custom Engraving
- Quick, Expert Prototyping Available

Helwig Carbon's unique capabilities in both molding and fabricating brushes allow us to give you the highest quality parts using the most economical methods of manufacturing. With over 80 years of fabricating experience, we can easily handle any of the finishing operations that can't be done by molding. Our extensive application analysis ensures that you will get the maximum performance and life out of your existing product design.
