- Fraction of the Cost

## Steps for rebuilding the GE turbine magazine bank of four and bank of six brush holders:

1. Disassemble the entire magazine. Clean and tumble all metal parts.
2. Check and adjust all boxes for proper fit and clearance of brushes.
3. Silverplate brass brush holder and assembly.
4. Replace backplates, springs and terminal screws.
5. Replace stainless steel brush retaining plate.  
Machine bottom of magazine for short brush retainer plate (if applicable).
6. Reassemble magazine.
